Number : 0074/SRT/ALZI/XII/2021  
Subject : ALZI's Materials Publicly Support for TADA

LiYu Tang  
Secretary General  
Taiwan Alzheimer's Disease Association

December 2<sup>nd</sup>, 2021

Dear LiYu,

On behalf of ALZI, I would like to extend our gratitude for TADA's donation of 8,000 pieces of mask to ALZI. The masks have been distributed to our chapters in 15 cities across Indonesia to help curb COVID-19 transmission in our community, and as a part of a collaborative project between Alzheimer's Disease International Asia Pacific Region and the Indonesian National Disaster Management Authority.

We also feel honoured that TADA adapted ALZI's jingle song "Do Not Underestimate Memory Loss" into your language on World Alzheimer's Month, 2021. We would be glad if you could reproduce and disseminate our information, education and communication (IEC) materials such as the video of the 10 warning signs of Dementia Alzheimer and brain gym, as well as other materials, to all Indonesian care workers residing and working in Taiwan. The materials could help the care workers understand "The Journey of Caring for the People with Dementia".

Furthermore, we hope you could disseminate the IEC materials amongst ministries and government institutions in Taiwan. Kindly document your dissemination activities and share with us the documentation. Lastly, we would be happy if you could connect us with the care workers from Indonesia.

We are looking forward to hearing from you.

#DoNotUnderestimateMemoryLoss

Best regards,

Michael Dirk Roelof Maitimoe  
Executive Director of Alzheimer's Indonesia
